Please ensure the subject field reads: **Win a Cruise** [CLICK HERE](#) for full terms and conditions.

Top-up cards

This month Tuxedo are launching the Top-up Card which will allow friends/family to Top-up your eaccount/card with cash on your behalf.

Simply give your friend/family member your Top-up card and they will be able to load money onto your card at over 14,500 Post Office branches and over 19,500 PayPoint locations in the UK. Ideal if you are travelling outside the UK and would like someone in the UK to Top-up your card with funds for you while you are away.

To apply for your Top-up card simply contact Customer Care on **0845 241 4276** or **+44 20 7101 6598** if calling from a mobile or overseas and your Top-up card will be sent to you.

Auto Top-up - the easier way to manage and control your money

Tuxedo have developed a new service which allows you to set-up automatic top-ups from your eaccount onto your card(s).

Auto Top-up can be created on a low balance basis or set-up to make regular loads onto the card as required.

Low balance basis

If your card balance drops below a particular amount, a specified deposit will automatically be drawn down from your eaccount onto your card.

A brighter 2009...

With our new services to enhance the user experience, Tuxedo makes it easy for you to not only budget and control your spending but also offers a simple way to pay bills by setting up a direct debit payment service or standing order. Tuxedo have even introduced topping up by cheque - simply send us your cheque along with the cheque cashing form and the balance will be paid directly into your eaccount/card-what could be easier! [CLICK HERE](#) to find out more.

Regular loads onto the card

Ideal to help you to budget; specify a regular load frequency in which you would like top-ups to be made from your eaccount onto your card. For example request a weekly Top-up and allocate the amount you wish to spend each week. This will help to ensure you do not overspend.

To set-up your auto Top-up function simply log-in to your eaccount online, select "eaccount rules" and complete the online form as required.
